

# 2002GT *Voluptuous* Flying Venus™

The Gilbert® 2002GT Flying Venus™ provides the same standard setting, fly catching ability of the 2000GT. And, the deeper design holds a large glueboard, flat.

Gilbert® Flying Venus™ wall sconces are serious integrated pest management tools. While not as powerful as our larger traps, these designs have significantly narrowed that gap, bolstering the overall fly management system.

Features two F20T12BL350 (or equivalent) 20 watt insect attractant lamps. Replace annually.

Dimensions: 24 3/4" Wide x 11 1/4" High.  
Depth slopes from 5 5/8" (at top) to 1 7/16" (at bottom point).  
Mount bottom point at least 6' 4" high in halls, corridors, walks, passageways, or isles (See: [www.gilbertinc.com/ada.htm](http://www.gilbertinc.com/ada.htm)).

Textured Vinyl Weight: 8.1 lbs. Ship Wt: 11 lbs.  
Polished / Antique Brass Weight: 10.9 lbs. Ship Wt: 14 lbs.

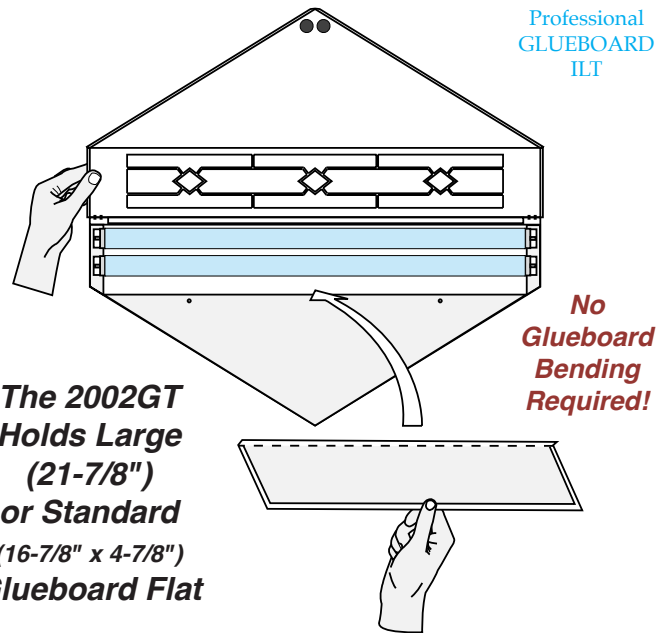

One Year Warranty (excluding lamps & glueboards)

**2002GT FLYING VENUS™ CHOICES:** Choose decorative power cord (6 ft., 115v grounded) or hard-wire version. We highly recommend ordering the optional hard-wire version for the aesthetic, cordless look. Universal knockouts and keyhole mounting slots provided on all versions.

All Flying Venus™ ILTs are available in four beautiful finishes: Polished Brass, Antique Brass, Textured Black or Textured White, vinyl-coated aluminum.

## 2002GT Holds Large Glueboard, Flat!

**Gilbert® Flying Venus™ wall-sconce ILTs do not depend on wall reflection for effectiveness and will not fade the wall you mount it on!**

# Gilbert® Manufacturing Plant

JONESBORO, AR, USA

**Don Gilbert**

**Company Founder**  
**Insect Light Trap Pioneer**  
**(1923-1993)**

Gilbert® has produced leading designs since Don Gilbert built the first, truly professional ILT in 1967. Gilbert® invented low mounting, corner mounting, multi-purpose portability, and superior catching ability.

Yet, it was not his trap designs, but his philosophy that was the true key to his success. Don's idea of ILTs, as only one tool in his bag, to be applied with a sincere desire to help customers in any way he could, was simple and honest. His efforts were so successful, Gilbert® was granted a registered trademark.

Don's son, David, now president, joined his father in 1981 and began applying what he knew of science to ILTs, picking his father's brain, doing his own research.

Gilbert® continues to offer the best in both glueboard and electrocuting ILTs and to lead the way away from gimmicks, toward true professionalism. Keep us informed of your experiences. Together, we will continue the fight for sincere, scientific use of professional ILTs.

All Gilbert® Professional ILTs are C-UL-US Listed and exceed all known codes - FDA, USDA, EPA, etc. We use only high quality component parts and warranty every Gilbert® trap.
