

Special Forces Versatility

Portable

Wall Mounted

Ceiling Hung

Light weight, convenient carrying handle, and multi-purpose design make the Guerrilla™ ideal for strategic surveillance maneuvers or surgical flywar.

It's not as powerful as our larger units; but the open top design, and mar-proof feet, allow placement down low, on the floor, significantly increasing its' effectiveness against flies. It can be wall-mounted about waist high (retaining effectiveness while making it easier to service) or ceiling hung, if need be. For glueboard version of this trap see page 17 or 18.

Features two F20T12BL350 (or equivalent) 20 watt insect attractant lamps. Replace annually for continued performance.

Standard version beautifully finished in anodized aluminum. Double nickel-chromed ugard door swings up for easy access to grid, reflective surfaces, and lamps for periodic cleaning and lamp replacement.

Spring-locked catch tray is secure; yet, easily removed for emptying.

Eyebolts included for ceiling hung installation. Six foot, 3-wire grounded power cord. Standard 115v/60hz. Interlock switch automatically shuts off trap when guard door is opened.

ONE YEAR WARRANTY (Excluding lamps only)!

Dimensions: 29 1/8" x 13 3/4" x 7 3/4"
Weight: 19 lbs. **Ship Wt:** 24 lbs.

Gilbert® Manufacturing Plant

JONESBORO, AR, USA

Don Gilbert

**Company Founder
Insect Light Trap Pioneer
(1923-1993)**

Gilbert® has produced leading designs since Don Gilbert built the first, truly professional ILT in 1967. Gilbert® invented low mounting, corner mounting, multi-purpose portability, and superior catching ability.

Yet, it was not his trap designs, but his philosophy that was the true key to his success. Don's idea of ILTs, as only one tool in his bag, to be applied with a sincere desire to help customers in any way he could, was simple and honest. His efforts were so successful, Gilbert® was granted a registered trademark.

Don's son, David, now president, joined his father in 1981 and began applying what he knew of science to ILTs, picking his father's brain, doing his own research.

Gilbert® continues to offer the best in both glueboard and electrocuting ILTs and to lead the way away from gimmicks, toward true professionalism. Keep us informed of your experiences. Together, we will continue the fight for sincere, scientific use of professional ILTs.

All Gilbert® Professional ILTs are C-UL-US Listed and exceed all known codes - FDA, USDA, EPA, etc. We use only high quality component parts and warranty every Gilbert® trap.
