

*The glueboard version of
The Don™,
The Largest
Selling
80 Watt
Industrial
ILT
For
Decades!*

Sticky Don™ is a long time dream come true. It's the glueboard version of the most legendary Insect Light Trap of all time, the Gilbert® Don™. The Sticky Don™ features the fly catching ability of the legend combined with revolutionary, maintenance-saving, easy access Tilt-A-Trays™.

The Sticky Don™ holds up to 9 glueboards while providing the wide angle of attraction and mounting versatility of the legend. It may be corner or flat-wall mounted. Both Dons™ make flies an offer they can't refuse.

Insect Attractant: F40BL350 (or equivalent) 40 watt lamps. Replace annually.

Installation: Flat-Wall or Corner mount with keyhole slots. Generally speaking, lower positioning yields best results.

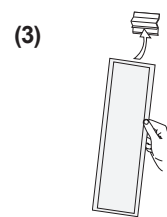

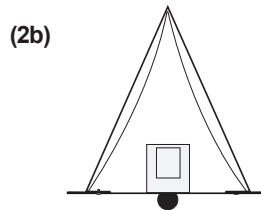

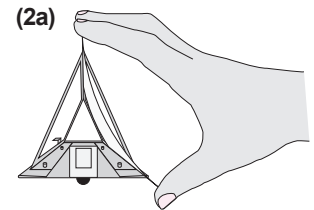

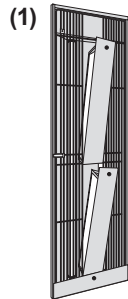

Electrical: Six foot, 3-wire grounded power cord. Standard 115v/60hz.

Construction Features: 4 3/4" deep wall-hugging profile. Frame and interior structure made of aluminized steel (lifetime auto muffler material).

ONE YEAR WARRANTY (Excluding lamps and glueboards).

Dimensions: 53 1/8" x 13 1/8" x 5 5/8"
Weight: 28 lbs. **Ship Wt:** 37 lbs.

- 1) Open Out Tilt-A-Tray™.
- 2) Slip Glueboards Into Tilt-A-Tray™ From Above.
- 3) You May Wedge Additional (Optional) Glueboards Into Side Clips.

Gilbert® Manufacturing Plant

JONESBORO, AR, USA

Don Gilbert

Company Founder
Insect Light Trap Pioneer
(1923-1993)

Gilbert® has produced leading designs since Don Gilbert built the first, truly professional ILT in 1967. Gilbert® invented low mounting, corner mounting, multi-purpose portability, and superior catching ability.

Yet, it was not his trap designs, but his philosophy that was the true key to his success. Don's idea of ILTs, as only one tool in his bag, to be applied with a sincere desire to help customers in any way he could, was simple and honest. His efforts were so successful, Gilbert® was granted a registered trademark.

Don's son, David, now president, joined his father in 1981 and began applying what he knew of science to ILTs, picking his father's brain, doing his own research.

Gilbert® continues to offer the best in both glueboard and electrocuting ILTs and to lead the way away from gimmicks, toward true professionalism. Keep us informed of your experiences. Together, we will continue the fight for sincere, scientific use of professional ILTs.

All Gilbert® Professional ILTs are C-UL-US Listed and exceed all known codes - FDA, USDA, EPA, etc. We use only high quality component parts and warranty every Gilbert® trap.
