

*The Classic  
Decorative  
Choice  
For  
Public Areas.*

The Executive™ features a decorative, tamper resistant front panel which makes it a good choice for entrance foyers/public areas. Effectiveness is similar to a Guerrilla™ or Sticky Tiger™. Removable inner chassis for recessed in-wall installation. Versatile corner or flat wall mounting. Mount Low ( below 5 ft.)

Features two F40BL350 (or equivalent) 40 watt Insect attractant lamps. Replace annually for continued performance.

Beautifully finished in anodized aluminum. Nickel-chromed guard door swings open for easy access to grid, reflective surfaces, and lamps for periodic cleaning and lamp replacement. Catch tray is secure; yet, easily removed for emptying.

Frame and interior structure made of aluminized steel (superior, lifetime auto muffler material). Keyholes on back for corner or wall-mount installation (see illustration, pg. 5). Six foot, 3-wire grounded power cord. Standard 115v/60hz. Interlock switch automatically shuts off trap when guard door is opened.

ONE YEAR WARRANTY (Excluding lamps only)!

**Dimensions:** 53" x 16" x 5 5/8"  
**Weight:** 26 lbs. **Ship Wt:** 37 lbs.

# Gilbert® Manufacturing Plant

JONESBORO, AR, USA

**Don Gilbert**

**Company Founder  
Insect Light Trap Pioneer  
(1923-1993)**

Gilbert® has produced leading designs since Don Gilbert built the first, truly professional ILT in 1967. Gilbert® invented low mounting, corner mounting, multi-purpose portability, and superior catching ability.

Yet, it was not his trap designs, but his philosophy that was the true key to his success. Don's idea of ILTs, as only one tool in his bag, to be applied with a sincere desire to help customers in any way he could, was simple and honest. His efforts were so successful, Gilbert® was granted a registered trademark.

Don's son, David, now president, joined his father in 1981 and began applying what he knew of science to ILTs, picking his father's brain, doing his own research.

Gilbert® continues to offer the best in both glueboard and electrocuting ILTs and to lead the way away from gimmicks, toward true professionalism. Keep us informed of your experiences. Together, we will continue the fight for sincere, scientific use of professional ILTs.

All Gilbert® Professional ILTs are C-UL-US Listed and exceed all known codes - FDA, USDA, EPA, etc. We use only high quality component parts and warranty every Gilbert® trap.
